- 90°-curves from 32 mm
- Very sharp picture
- Separate light control
- Service-friendly

S a n i c a m

The SaniCam is an exceptional camera system with a miniscule camera head and flexible cable. It moves easily through small drains and will negotiate right angle bends starting from Ø 32mm.

The SaniCam is ideal for household use, inspecting sanitary pipes in bathrooms and kitchens.

Minuscule black and white or full colour camera

The SaniCam is a very user-friendly and complete camera system: with net stream adapter, light control and a video connection. It has a wide-angle lens with fixed focus.

The camera is made of super solid stainless steel.

It is available in black and white as well as full colour.

The black and white camera has a head of 20 mm length and 15 mm diameter.

The colour camera is also 20 mm long, but has a diameter of 18 mm. Both cameras are hardly bigger than a finger top.

Despite their minuscule size, they do an excellent job. They see really everything!

Small as a finger top

A user-friendly camera

The SaniCam is an easy camera:

- easy to connect and simple to use,
- solid,
- separate light control,
- flexible cable that takes care of a good propulsion in the drains,
- maintenance free,
- excellent picture quality
- can be connected to most monitors, Handscofes, PC's and laptops with video-in connection.

Equipment

The SaniCam standard equipment:

- camera head
- 10 meters of push cable
- storage suitcase

Optional

- control box with video-exit, connection cable, stream adapter and light control
- 15 meter cable
